

## Providing Creative Solutions to Everyday Processes

---

Corporate Express, Inc., a Buhrmann company (NYSE: BUH), is one of the world's largest business-to-business suppliers of essential office and computer products and services with 2004 sales of approximately \$4.5 billion in North America.

Corporate Express retained Wild-Webs to assist in the development of Intranet applications to track deliveries to their Kansas City, Missouri warehouse. Wild-Webs assisted Corporate Express staff with planning, development and implementation of the application, which resulted in more efficient warehouse operations, better use of warehouse assets and staff, and reduced operating costs.

Wild-Webs also provided training to Corporate Express staff to ensure that the application could be maintained in-house.

“ In creating the Delivery Schedule for Receiving on the KC Intranet you have set us apart from other divisions as a leader in technology! Thanks as always for your efforts and a job well done! ”

Jane McNett  
I.S. Director  
Corporate Express - KS DIV

Wild-Webs develops custom, interactive and database driven online solutions for business. We create solutions to meet a variety of needs, such as: promoting your business to the general public; intranet applications for use within your company; and private sites (extranet) for sharing content with clients and partners.
